

Scooter Smart - Scooter Carrier

To order call: 1800 420 971

SCOOTERSMART
Independence & safety in lifestyle mobility

Product Specifications and Features

This great Scooter Rack will hold even the heaviest scooter...that's how tough it is. No need to buy a "small" scooter anymore!

Go to the park on a family outing or to the shops and park easily in the underground car parks. Wherever you want to go with your Mobility Scooter, the Scooter Rack will take you there.

The loading ramp drops down so you can safely load your Mobility Scooter, then use the anchor points to secure your scooter. When you get to where you're going, reverse off, reposition the ramp and then lift the entire rack off for easy storage and parking.

Specifications:

Colour:	Black
Load Capacity:	226 kg
Length of Carrier:	152cm
Width of Carrier:	83cm
Width of Ramp:	83cm
Length of Ramp:	152cm
Total Weight:	43kg

Cost \$1490 ex. installation

Features:

Tie Down Strap, Wheel away system, Lighting kit & License Plate Bracket, Hitch pin with padlock, Gas strut and Reversing sensors.

Some towbars are fitted at an unsuitable angle meaning your Scooter Rack will not sit horizontally. Please check with your Towbar fitting or Suspension Specialist to ensure they can provide you with a towbar hitch that best suits your specific model of car.

Carrier folds up when not in use.
